

Trojan Families,

We had a great day today at Rancho and want to personally thank you for your patience and understanding as we navigate drop-off and pick up. I would ask that you please not park in front of any driveways to prevent our neighbors from accessing their property. On a different note, we have noticed some illegal u-turns on Sugargrove from the Lambert access point and u-turns in our parking lot. Please avoid doing this to prevent an accident or a traffic ticket. Remember, if you are using Lambert and Sugargrove, you must turn right into the parking lot for the driveway student drop-off. You must wait in the car line until you reach the gate traveling west and we will allow your child to get into the car. This parking lot requires a ton of patience. The best idea is to make a plan with your child tonight. Otherwise, use Lambert to Fireside to access Pounds or Richvale for our two other zones.

Students watched an important video in their first period class today explaining all of the campus-wide expectations. Please talk to your child about these expectations.

7th graders will receive their chromebooks and consumable materials tomorrow during their ELA class and 8th graders will receive their consumable materials on Friday during their ELA class. Make sure your child charges their chromebook every night in preparation for the next day. We do not have loaner chromebooks to distribute. It is their responsibility to bring a charged device everyday because they will use it in every class.

PTA has launched their shoe fundraiser and will be putting boxes at all drop off gates on Fridays. Check your closet for any gently used athletic shoes and consider donating them on Fridays when you drop your child off at school.

If you want to support our staff, we would love your help stocking our staff lounge. Flavored waters, soda, chips, and snacks would be a wonderful surprise for our team. If you are willing, please drop off all items at the office anytime during business hours.

Regular and detailed phone and email messages will begin on Mondays starting next week. Thank you again for your amazing support!
